The TCA Manual, a publication of the Tissue Culture Association, Inc., is devoted to the advancement and dissemination of basic and applied knowledge by publishing techniques, methods and procedures for the cultivation of cells, tissues, organs, or tumors from multicellular animals or plants. The TCA Manual is published quarterly, one volume per year. The subscription price is $38.00 per volume (domestic). Single copies are $10.00 (domestic). Regular members of the Tissue Culture Association may receive the TCA Manual at the reduced rate of $25.00. Correspondence relating to subscriptions, nonreceipt, reprints, defective copies, availability of back issues, advertising, and late or lost proofs should be directed to the Business Office, 12111 Parklawn Drive, Rockville, Maryland 20852 (Area Code 301 881-8146). Application to mail at Second Class Postage Rates pending at Rockville, Maryland 20852.

TISSUE CULTURE ASSOCIATION MANUAL

NOTICE TO CONTRIBUTORS

1. The Tissue Culture Association Manual is published quarterly by the Tissue Culture Association, Inc. and represents the contributions of investigators in the field of cell, tissue and organ culture. The Manual publishes papers representing techniques, methods and procedures developed in the course of studies with vertebrate, invertebrate and plant culture. Manuscripts should be mailed to:

   Tissue Culture Association Manual
   c/o Biomedical Research Institute
   12111 Parklawn Drive
   Rockville, Maryland 20852

2. Each contribution must have a descriptive title not to exceed fifteen words. The title should be followed by the legend "Submitted by," name(s) of the author(s), and the institutional address. Identify as page 1.

3. Each contribution must have an introduction and be identified as: I. INTRODUCTION. The introduction should be brief, yet comprehensive, and include any special instructions, such as CAUTIONS, that the reader should follow. Begin INTRODUCTION on page 2.

4. Each contribution must have a materials section identified as: II. MATERIALS. The materials section should list all items to be used in the technique, method or procedure and include a description of the item, a stock or catalogue number and identification of the manufacturer or supplier with a footnote address (the list of footnote addresses should be on a separate page). For example:

   Pipettes, serological 5 ml, No. xxxx Corning[3]

5. Each contribution must have a procedure section identified as: III. PROCEDURE. The procedure should be written in the present tense, imperative mood, and should itemize and describe each step to be taken. The stepwise description of this section should be explicit and in such detail that the novice could successfully follow the procedure and duplicate the results of the author(s).

6. Each contribution must have a discussion section identified as: IV. DISCUSSION. The discussion should include a description of what can be expected from following the procedure, the role of the procedure in a specific or potential application, and any precautions that should be exercised (for example, in the interpretation of results).

7. Each contribution should have a reference section identified as: V. REFERENCES. References must be cited in the text in numerical sequence and listed in Reference section in the order first cited. References should follow the same style as published in the journal IN VITRO. For example:

   1. Danes, B. S., and A. G. Bearn. 1966. Hurler's syndrome: a genetic study in cell culture. J. Exp. Med. 123: 1–16.
   2. Price, P. J. 1975. Preparation and use of rat-tail collagen. Procedure 71118. TCA Manual 1: 43–44.
   3. Harris, M. 1964. *Cell Culture and Somatic Variation.* Holt, Rinehart and Winston, New York, pp. 233–241.
   4. Trowell, O. A. 1966. Tissue culture in radiobiology. In: E. N. Willmer (Ed.), *Cells and Tissues in Culture. Methods, Biology, and Physiology.* Volume 3. Academic Press, London, pp. 63–149.

8. Each manuscript is to be submitted in an original plus two (2) copies. The first page should include only the title, author(s) and institutional address and should be identified as page 1. Each section, i.e., I. INTRODUCTION, II. MATERIALS, III. PROCEDURE, IV. DISCUSSION and V. REFERENCES should begin on a separate page. Each manuscript should be typewritten double-spaced, with 1" margins on the right and left and 1-1/2" at top and bottom of each page.

9. The cost of all illustrations, including line drawings, photographs and other art forms, must be borne by the author and should be included only where and when absolutely necessary. The charge for black and white illustrations has been set at $50.00 per page, regardless of size.

10. Subscription rates: Members of the Tissue Culture Association — $25.00 per volume. Non-members — $38.00. Postage and handling charges included. No discounts to agents.

11. All inquiries regarding manuscripts, subscriptions, advertising, etc., should be directed to:

    Tissue Culture Association Manual
    12111 Parklawn Drive
    Rockville, Maryland 20852
    Telephone Area Code (301) 881-8146.

Mention of a proprietary product does not necessarily constitute an endorsement of the product by either the author or the Tissue Culture Association. Product sources are given only to indicate what product the investigator used in his particular procedure and to aid the novice in locating a source, or THE source should the novice wish to repeat the procedure exactly.

TABLE OF CONTENTS

Procedure Number	Title	Page Number
35701	Preparation of Medium L-15. *Submitted by Albert Leibovitz*	557
41158	Preparation of Fetal Rat Hypothalmic Cells in Primary Monolayer Culture. *Submitted by Dennis Vaccaro and Anne Messer*	561
41545	Reproducible Technique for Rat Liver Culture. *Submitted by Tohru Okigaki*	565
41549	Initiating Attached Cell Lines From the Lepidoptera (Insecta). *Submitted by Ronald H. Goodwin and Patricia E. McCawley*	567
46174	Primary Culture of Epithelial Cells From the Human Mammary Gland. *Submitted by B. Allen Flaxman*	571
49109	Method of Obtaining Rat and Primate Glomeruli. *Submitted by Louis W. Meister, Mitchell H. Goldman, Stephen B. Leapman and Pia Glas-Greenwalt*	575
49353	Large Scale Suspension Culture With Limited Facilities. *Submitted by Donald J. Giard*	577
53835	Method for in Situ Embedding of Cultured Cells Grown in Plastic Tissue Culture Vessels for Transmission Electron Microscopy. *Submitted by William H. J. Douglas, Edward P. Doughtery and Grady W. Phillips*	581
60117	Staining Cultures of Cells. *Submitted by Cecil H. Fox*	583
61139	Staining and Photography for Chromosome Banding With the Fluorescent Dyes Quinacrine Mustard and Hoechst 33258. *Submitted by Mary R. Bordelon*	587
70105	Simple Isoelectric Focusing Method to Quantitate LDH Isoenzymes in Cultured Cells for Cell Characterization. *Submitted by R. D. Ellender, B. L. Middlebrooks and P. M. Toom*	593
73303	Rapid Detection and Identification of Mycoplasmal Contaminants in Cell Cultures by Immunofluorescence. *Submitted by Pierre Payment and Michel Corbeil*	597
73982	Method for Obtaining Soluble Tumor Antigens From Tissue Culture Tumor Cells. *Submitted by Lynda L. Miller and David F. Hickok*	599
74019	Two Procedures for Estimating Mean Cell Volume. *Submitted by Peter C. Will, Emily T. Brake and John S. Cook*	601
75022	Tissue Culture Method for Toxicity Testing of Biomaterials. *Submitted by Oscar Sudilovsky*	607
75517	Suspension Cultures of Malaria Plasmodia in Roller Tubes. *Submitted by Herman Polet*	613
78097	Simple Method for Isolation of Clones From Plastic Surface. *Submitted by Henryka Kurzepa*	615

TISSUE CULTURE ASSOCIATION MANUAL

Techniques, Methods and Procedures for
Cell, Tissue and Organ Culture

ISSN 0361 0268

VOLUME 1	**1975**
VOLUME 2	**1976**
VOLUME 3	**1977 (Current Volume)**
VOLUME 4	**1978**

Dear Reader:

The Tissue Culture Association MANUAL is a continuing source for the compilation of techniques, methods and procedures relating to the cultivation of cells, tissues, organs and tumors derived from vertebrate, invertebrate and plant species. The MANUAL is published quarterly. Volume 1 began in 1975. Each quarterly issue will consist of 64 pages. A one year volume will consist of approximately 256 pages.

Investigators in the laboratory may elect to receive the TCA MANUAL in either a loose leaf or bound form. All library subscribers receive the TCA MANUAL in the bound form, unless the loose leaf form is specified.

Each issue of the TCA MANUAL contains a table of contents. The fourth number of each volume will contain both an accumulated subject and author index. Each technique, method or procedure will be numbered and signed (on the original) as approved by the senior author. Numbering of each procedure will facilitate filing and use by the individual working in the laboratory.

PRICE LIST

INDIVIDUAL SUBSCRIPTIONS	
Members of the Tissue Culture Association . . . . . per Volume	$25.00
Non-Members . . . . . per Volume	38.00
INSTITUTIONAL SUBSCRIPTIONS	
Sustaining members of the Tissue Culture Association . . . . . per Volume	25.00
All other institutions . . . . . per Volume	38.00
